

Seed of Excellence

Child Care Facility

Project Information

Office Interiors had the enjoyable opportunity to work with Word of Faith Community Church and Pieper O'Brien Herr Architects (POH) for the day care facility called Seed of Excellence. The 23,000 square foot facility was one that included four class rooms, an outdoor play area, a full service kitchen, a nursery, parent center and business offices. The quality of the facility and design was like none other that OI has been associated with. The church organization was looking to ensure that the facility reflected the belief system of the church and the care that they will provide.

Office Interiors worked with both organizations as a furniture partner, acting as an extension to POH with furniture fixture and equipment budgeting, product sourcing, procurement and installation. POH brought OI in early which

gave us the time to offer multiple options at varying price points with finish options to compliment the design that was being developed. In all the project was another great success as has been the case with past projects that POH and OI have teamed up on together.

The day care is second to none and we all—client, design firm and product provider—are very proud!

Project Team

Design Team: Pieper O'Brien Herr Architects

Project Management: Gleeds Worldwide

Construction: Foley Construction

Furnishings: Office Interiors
