

Office Interiors is proud to take part in assisting with Habitat for Humanity!

Office Interiors is proud to take part in assisting with Habitat for Humanity in the building of a new home in DeKalb County in 2009. The house will be for Tiya Thayer and her family.

Office Interiors assisted with painting the interior of the house. We had more than 15 people volunteer. In addition to volunteering, Office Interiors provided lunch for more than 45 others that took their time to help a needy family.

“Community services are part of Office Interiors business plan as well as the right thing to do.” said Bill Coons, president of Office Interiors.

Each year we ask for our team members to support an organization that they believe in.
