Dear Bill,

After our first year in our new building it is amazing how many compliments we still receive on the design and layout. A week does not go by when a major prospect visits us and comments on our wonderful facility.

Facilitec deserves all the credit for making this very affordable, while providing a first class environment for our employees and customers.

Please feel free to use us as a very satisfied reference.

Best regards,

Source Technologies, Inc.

A handwritten signature in black ink, appearing to read 'Miles Busby', is written over the printed name. The signature is fluid and cursive, with a long, sweeping tail that extends to the right.
